History

History

Anthony Vortega had a bright future. At twenty two, he was already a well known model, just starting his musical career. Perhaps his best known feature was his eyes, startlingly bright and full of life. It had gotten his head plastered over many clothing Stores and TV. He was confident, and that bred his arrogance. He grew calloused to those who worked with him, and overconfident in his own abilities. That all changed when his Sire found him. With a surgeon's precision, his eyes were rendered worthless, the colors stripped and leaving the young man blind. Only after a week to let him heal enough was he embraced. His transformation did not heal his wound, and his Sire made sure to record it and spread it everywhere. It's often said the kindest souls are those that have faced trials and pain... and now "Cleppy" knows that all to well. He learned his lesson too late. He managed to, after a dozen years, escape his Sire's brood and establish himself in the Warren's of a battlefront city.
