History

History

Lorenzo Giovanni was born into the Giovanni family in the 1660's. He was trained and entrenched in the Giovanni tasks of learning about the shroud and how to remove it, the study of ghosts and wraiths, and the study of Fetters and artifacts.
This was his life for centuries. He spent spent 50 years as a patriarch of Rome before he decided he was done. He had become disillusioned with the families goal and no longer wanted any part of it. He knew that even as old and powerful as he was, as a collective the family would not allow him to leave. So, he made contingency plans. He stole one of the most powerful Fetters that the Giovanni possessed as well as several less, but still powerful ones.
He hid the Fetters in locations that, as long as he was alive, they would be safe and undisturbed. If he were to meet final death? who is to say, lost for ever, end up in the hands of the Camarilla or Sabbat, or even in the hands of Werewolves and Mages.
While hiding a Fetter in London, Enzo came across a young Kindred named Darrus. He was intrigued by the nature and recklessness of the Kindred and decided to join him and his.... "punk rock band"
The down side to stealing and dealing with those Fetters is they have left him with some of the Wraiths that possessed them. Most are none to happy, especially since he hid them, the one he keeps with him has become more amenable to Enzo since it isn't hidden in a pit somewhere.
