Notes

Derangements

Borderline - Vampires with borderline personality suffer from mood instability and low self—image. Constant, sudden mood swings and bouts of anger characterize sufferers of this disability, particularly when frustrated. Borderline victims

sometimes takeout their anger on themselves, masochistically inflicting injury or even trying to kill themselves. They think in very blackvandhite terms and often form intense, conflict ridden relationships.

Borderline Cainites might succumb to the Manic-Depression or Hysteria derangements
