# History

History

 Lucifer was born in Pennsylvania in 1752. He was brought up by a distant father and a deranged mother. Even at an early age his parent knew he was not well. Hearing things that weren't there and having an imaginary friend that knew things he shouldnt. Around 5 years old he witnessed his mother

take her own life, thus spiraling him into more of an unstableness. Thus his father having no love for him, locked him away in an asylum when he was 6. The head doctor, Dr. Desmond Thorne, took an interest in him and decided to somewhat adopt the young boy. Years go by and he grows to 19, where Desmond reveals he is a vampire and offers Lucifer a choice. Lucifer accepts and is turned but upon awakening he becomes torpored at the hands of his sire and is sealed away in the basement behind a cement wall till modern day. After being 'rescued' by his sire, he is transported while still in torpor to Baltimore. He is given a rundown on modern times but is taking things slow due to his shy nature. He is still baffled by modern intricacies but is attempting to adapt to this strange new existence.
