# History

History

Missy was born the second daughter of Andrew Milliner's third wife. Her family growing up was a massive mess of distant cousins, half-siblings, and uncles from across the world. She was taught the ropes of the family business and was regularly made to sit through long meetings, formal dinners, and extensive business lessons. That all being said, she was not truly brought into the dirty work until her embrace. Instead her family allowed her to pursue a path as a streamer, partially to keep her out of the way until she was of age and partially because it allowed them to get a foothold into the social media craze, which she threw herself into quite happily. When the time came for her embrace, at her 20th birthday, her father immediately used his weight in the family to get her lessons with main branch Giovanni in the Discipline of Necromancy to make up for his largely weak understanding of it and the general lack of proficient necromancer's in the local branch of the family. As soon as she began to manifest her Path, he put her responsibility into being a cleaner for the family's crimes. He found that she had a knack for the Necromancy of their clan and continued to push her to pursue it.

As of the current nights, Missy has fell into a rivalry with the tremere streamer Juliette.
