Noémi Toussaint

Overview

Overview

Le Con de Paris, The Cunt of Paris. Notorious hell raiser, rabble rouser, trouble maker, and general ner-do-well. A street-fighting punk, a hedonistic bohemian, insufferably Parisian. Member of the oldest Anarch gang in France, Colère D'ange, Angel's Wrath, known for their centuries long war with the Sabbat. Noemi moved stateside at the turn of the millennium, causing a ruckus in New York before joining in the Night of Blood in Baltimore and earning some renown amongst the Americans before disappearing for a few years.

Noemi has been back in town for a few months, terrorizing the streets of Baltimore. A compulsive thief, Noemi has been stealing cars and generally pissing people off. Nobody is quite sure why; Noemi is not known for her political ambitions, she mostly just follows conflict.

Expanded Backgrounds

Allies
Cassandra (quite influential) - An middle aged woman and mid tier crime boss. Mainly sells drugs, but also acts as a fence for Noemi. Runs a small gang, trades favors with Naomi.
Anthony Lasagna (Somewhat powerful) - A dirty cop on Noemi's payroll
Lilly Enwood (moderate influence) - A district attorney and paramour
Contacts
Skribl - A graffiti artist and small time drug dealer, hears about everything on the streets
Anthony Bruschetta - Operates a chopshop, hears a lot about organized crime dealings
Fame
A patron of the arts and consummate muse, Noemi is utterly talentless in any creative endeavors
Herd
Noemi always gathers a herd if she stays in one place too long, as she adores mortals and vice versa, but she has not been in Baltimore long
Influence

Mentor
Francois is dead, and it ahs been a while since Noemi needed a guiding hand
Resources

A lifetime of thievery and a couple big scores have left Noemi fairly well off, though she spends money extremely quickly.
Retainers
While Noemi has blood bound humans in the past, she does not believe in keeping them around. Ghouls creep her out.
Status
To be discussed with storyteller. I believe her Anarch Status should be 2. There are not a lot of Ancille Anarchs, and her merits reflect some renown. I see more as a Smiling Jack type of character; not a political force in the traditional sense, so much as a minor folk hero.

Eva Green
A lithe young woman, her features are flawless. Her hair is a long silky espresso, her eyes are a deep reflective brown, her lips are full and inviting. You feel like you would want to paint her, but also feel that many have already tried and failed to capture her je ne sais quoi.
Noemi wears clothes stolen from the richest, most fashionable women in the world, worn without class or aristocratic bearing. She is often seen in fur coats that are ripped or with cigarette burns in them, or thousand dollar dress she tore to make them shorter.
Noemi is flirtatious, mocking, and witty. She speaks with a breathy voice in a heavy French accent.

History

History

Noémi Toussaint was born in Paris in 1890. Her mother was a prostitute, her father a client. As a child, Noemi was a thief and a pickpocket, who grew to be a stick-up artist and mugger. By 19, she was an outlaw bank robber, and by 21 had joined the Bonnot Gang. The Bonnot Gang was a gang of anarchist bank robbers and car thieves, credited with inventing the concept of a getaway car. The gang was largely killed off by authorities by the next year, but by that time Noemi had attracted the attention of François Dupont, and was embraced.
Francois was a Brujah and leader of the infamous Anarch gang Colère D'ange, Angel's Wrath, name after the neonate Angel who was slain by her sire in accordance with the traditions of the Camarilla. Angel's Wrath was comprised largely of Francois' childer and grand-childer, and they were known for their brutal skirmishes with Sabbat. Francois was killed in 1939 in Seville by nationalist forces after bringing his gang to participate in the Spanish Civil War. The gang returned to Paris to aid in the French Resistance against the nazis. The gang was led by Louis the Tiger, Francois' first childer, with Noemi as second in command.
As the decades past, and clashes with the Sabbat became more frequent, Noemi became a respected warrior and leader in her own right. She moved to London in the 70s and ran a small chapter of Angel's wrath, recruiting Anarchs from the ranks of the camarilla, and even embracing a young punk rocker name Skidmark. A deep sense of ennui had started to grip her however, and by the new millennium she had travelled to New York. Noemi found her reputation had not fully travelled over the atlantic, but even the American Anarchs knew of her gang. She instead established her reputation the old fashioned way, through violence. Noemi agitated, vandalized, stole, assaulted, and generally was a

huge pain in the ass for the New York Camarilla.
By the time the NY Camarilla was ready to bring the hammer down on her, word was spreading about the Night of Blood. Noemi gathered what Anarchs she could and headed to Baltimore. She gained a reputation in the pitched firefights and car-to-car battles on the outskirts of town, taking out a pack of young new-world Sabbat who had never seen combat at that level. She did not stick around long afterwards, preferring to follow a fledgling Toreador named Lilly who she had fallen in love with. They moved to LA, and had a brief love affair lasting only a decade, before Lilly defected to the Camarilla. Heartbroken, Noemi arrived back in Baltimore six monthes ago, hearing that tensions were starting to rise with Sabbat again. She was quiet for a while, but recently has been building a power base on the street, being a thorn in the side of the local Camarilla, and stealing anything she can get her hands on. The Camarilla aren't sure what she's doing, and assume she's tryna be a pain in the ass.

The truth is, Noemi wasn't planning to stay in Baltimore this long, but she has to look out for her latest Childe. Noemi recently embraced a young boxer, Daniel O'Shea, and is sticking around to keep an eye on him from the shadows. She is a little nervous about this; she didn't get permission for the embrace, and she isn't sure if the Tremere prince has to power to trace lineage through blood. So far, she has been leaving him notes about his new existence.
(OOC I got this cleared with Meat, Daniel's player)
