History

History

So, as far as the cam is concerned she is Sofia Antonia de Granada, last known apprentice of Don Luiz Pacheco de Narvajes, a 1600s spanmish Fencing master and philosophers,before being ghouled into service by an annon spaniard toreador and made to be his librarian, even publishing Pacheco's Magnum Opus - The New Science and Philosophy of Skill at Arms - under anonymity and then being brought into vampiredom a few years later, rising to prominence not only as a fencing master but also a craftswoman, making fine clothes and jewels.

Of course this is all bullshit, even their age. She just stole the identify of a random serf in the spanmish records one night. The part of the annonynous spaniard toreador and the ghouling, minus the date, is not bullshit

It just so happens they do know the works of Pacheco quite well, since spanmish fending does a pretty good job of hacking people into elegant bits
