Veronica Fowler

Overview

Overview

Veronica Fowler is a vulgar yet creative individual. A writer with a gift that charged her with turning her knack for writing and telling stories into something sustainable, and little filter outside of her work to keep her sexually charged and mean spirited behavior in check. Underneath that exterior, is a woman who struggles to create meaningful connections and sustain relationships, for one reason or another.

Face Claim

Veronica Fowler is a short woman with an average build, while not extremely active, remains quite flexible. She is a bit pudgy in a few areas, a result of her lifestyle. Her skin is a medium tan color, littered with freckles across her face and dotted a bit along her shoulders and arms

Veronica Tends to wear very form fitting clothes as a base layer, booty shorts, thigh highs, tight crop tops, with baggier clothes over top, hoodies and jackets mostly.

She opts for a mix of bright and dark colors, pinks red and oranges with blacks and browns. She can always be found with a set of headphones, Glasses, and her messenger bag on her

Addendum: she also switches up her wardrobe for some rather comedic and or trashy stuff from time to time for kicks or to get one someone's nerves

History

History

Veronica never knew her parents, an unwanted child, she was delivered to the doorstep of the local hospital. From a young age, Veronica had a passion for telling stories, something her caretakers tried fostered in her, and that she took with her through out her life in every step she took. Veronica was a rough and tumble player, and never quite conventionally attractive, leading her to being quite ostracized in school, making her rather violent and spiteful, retreating socially.

Veronica turned into quite the trouble maker as a play for attention, with little success, in fact turning most of her foster parents away from her with her outbursts. At 16 she struck out on her own, taking her creative spark with her. Veronica immediately set to learning and writing, creating novels of varying levels of quality until she had something she could get sold, and Dabbling heavily in tech and computers, coming to be more social in message boards and forums, though she tended to be rather toxic and vulgar.
By 18 She had at least two moderately successful novels, using the money to continue to charge her career, self publish, and hire an editor, used her accumulated knowledge of tech and software to cheapen her living by stealing WiFi signals and pirating games and software.

Veronica had just turned 20, living a life of small luxuries as she kept her living costs low, and having just finished branching out with several experimental novels and dollar store smut books under different pseudonyms. Around that time is when Jasmine Baxter found her, and impressed by her creative ventures, Offered her a deal she couldn't refuse.
