# How To Collect XP

So, you want some of those sweet sweet eXperience Points do you? Well collecting them is pretty straight forward:

- Roleplay a scene (see How To Roleplay)
- When the scene is complete, one of the participating players posts a scene summary in the #scene-summaries channel on the Discord sever using the following template:

```
Characters: <name> (<@player>) , <name or Victim NPC> (<@player>), etc.
Scene: <title or link to thread>
Duration: <rough amount of time, 15 minutes, 1 hour, 1 day, etc>
Summary: <a ***brief*** summary of the scene and any accomplishments>
```

- When a scene summary has been processed by Staff it will be marked with a check-mark reaction and the applicable characters' sheets will be updated according. If Staff have any questions with respect to a Scene Summary, they will contact the posting player.
